LAB-5

Program 1: Arithmetic Operators

Query/Input:

```
SELECT name, salary,  
       salary + 5000 AS increased_salary,  
       salary - 2000 AS decreased_salary,  
       salary * 2 AS double_salary,  
       salary / 2 AS half_salary  
FROM EMPLOYEE;
```

Output:

Output:

name	salary	increased_salary	decreased_salary	double_salary	half_salary
Clark	45000.00	50000.00	43000.00	90000.00	22500.000000
Dave	55000.00	60000.00	53000.00	110000.00	27500.000000
Ava	48000.00	53000.00	46000.00	96000.00	24000.000000
Emma	40000.00	45000.00	38000.00	80000.00	20000.000000
John	60000.00	65000.00	58000.00	120000.00	30000.000000

Program 2: Comparison Operators

Query/Input:

```
SELECT name, salary  
FROM EMPLOYEE  
WHERE salary > 45000;
```

Output:

Output:

name	salary
Dave	55000.00
Ava	48000.00
John	60000.00

Program 3: Logical Operators

Query/Input:

```
SELECT name, dept, salary
FROM EMPLOYEE
WHERE dept = 'Sales' AND salary > 45000;
```

Output:

Output		
name	dept	salary

Ava	Sales	48000.00

Program 4: Logical Operators using OR

Query/Input:

```
SELECT name, dept, salary
FROM EMPLOYEE
WHERE dept = 'Sales' OR dept = 'IT';
```

Output:

Output	
name	dept

Clark	Sales
Ava	Sales
John	IT
